

## Summary of key findings

### Official statistical definition of homelessness (Table 1.FRA)

The following statistical definition of homelessness is used: people who have spent the previous night in a place not intended for habitation (e.g., street, tent, car, car park, park or wood, place of public transport, slum) or in an accommodation (emergency accommodation, hotels, accommodation and social reintegration centres called "CHRS", specific centres for asylum seekers - i.e., accommodation without rental contract, sublease contract, or residence contract in social residences, that would be considered as housing).

### Latest national estimates of homelessness (Table 2.FRA)

- 333 000 individuals, representing 0.49% of the total population (2022)
- Approximately 60% are men, 40% are women
- Point-in-time count, based on an estimate from the *Délégation interministérielle à l'hébergement et à l'accès au logement (DIHAL)*
- ETHOS Light groups included:
  - ETHOS 1: Living on the streets, in public spaces
  - ETHOS 2: Emergency accommodation (e.g., shelters)
  - ETHOS 3: Accommodation for the homeless (e.g., hostels and women's refuges)
  - ETHOS 4: People in institutions
  - ETHOS 5: People in non-conventional dwellings (e.g., caravans, cars or tents)
  - ETHOS 6: Living temporarily with others in conventional housing (e.g., sofa-surfing)

### Legal framework to collect data on homelessness (Table 3.FRA)

There is no legal obligation to collect data on homelessness in France.

### National homelessness strategy (Table 4.FRA)

[Housing First Plan](#) (*Le plan quinquennal pour le Logement d'abord et la lutte contre le sans-abrisme*)

### Approaches to collect data on homelessness (Table 5.FRA)

- Night of Solidarity (*Nuit de la solidarité*): Street count with questionnaire performed by volunteers in major cities (Table 5.1.FRA)
- Homelessness survey (*Enquête sans domicile*): Individuals using services which provide meals, housing or night shelters were sampled through interviews and questionnaires (Table 5.2.FRA)
- Slum clearing platform (*Plateforme résorption-bidonvilles*): Organisations working with people living in non-conventional housing settlements regularly update information on an online platform (Table 5.3.FRA)
- Information system – Integrated reception and orientation service (*Système Information – Service intégré d'accueil et d'orientation (SI-SIAO)*): Information regarding individuals requesting housing assistance through SIAO is recorded (Table 5.4.FRA)

**Table 1.FRA. Official statistical definition of homelessness**

<b>Homelessness</b>	The following statistical definition is used: people who have spent the previous night in a place not intended for habitation (e.g. street, tent, car, car park, park or wood, place of public transport, slum) or in an accommodation (emergency accommodation, hotels, accommodation and social reintegration centres called “CHRS”, specific centres for asylum seekers – i.e. accommodation without rental contract, sublease contract, or residence contract in social residences, that would be considered as housing).

**Table 2.FRA. Data on people experiencing homelessness**

National data, presented according to [ETHOS Light Typology](#)

Headline estimate of homelessness (Individuals)	% of total population	ETHOS 1 People living rough	ETHOS 2 People in emergency accommodation	ETHOS 3 People in accommodation for the homeless	ETHOS 4 People living in institutions	ETHOS 5 People living in unconventional dwellings	ETHOS 6 People staying with family/friends
333 000	0.49%	~5 500	~ 316 000	Included in ETHOS 2	Not included	~11 200	Not Included

Type of count: Point-in-time  Flow

Year: 2022

Included in headline estimate: Children (<18)

Temporary accommodation for: Asylum seekers  Refugees  Victims/survivors of domestic violence

Note: Estimate by the Délégation interministérielle à l'hébergement et à l'accès au logement (DIHAL), based on the aggregation of several point-in-time data sources from across the country. The data in ETHOS 2 include approximately 113 000 individuals staying in temporary accommodation for asylum seekers.

5.1.FRA. Night of Solidarity ( <i>Nuit de la solidarité</i> )	
<b>Description</b>	
<p>The <i>Nuit de la Solidarité</i> is organised once a year, on a given night in January or February in numerous French cities. Volunteers count the number of people who plan to spend the night or are already asleep in the street, tent, camp, car, car park, park or wood, place of public transport, camp, etc. They also administer a questionnaire. (The city of Paris piloted a second street count in the summer of 2023, in addition to the winter street count).</p>

**5.2.FRA. Homelessness survey (*Enquête sans domicile*)**

**Description**

Individuals using services providing meals, housing or night shelters are sampled through interviews and questionnaires. Although not all people sampled were necessarily experiencing homelessness, their status was established through the questionnaire. The survey previously took place in 2001 and 2012. The sampling was a random 3-degrees sampling, which included choosing random conurbations, time of visits (within a given frame to maximise responses) and users attending the service on the day of the planned visit. The sampling process was informed by a pre-survey realised by regional offices and enriched by telephone surveys. French-speaking people filled out a form face to face with an interviewer. Non-French speaking people had the option to choose between 14 languages and filled out a self-administered questionnaire if they understood one of the languages.

**ETHOS Light groups included**

- ETHOS 1: Living on the streets, in public spaces
- ETHOS 2: Emergency accommodation (e.g., shelters)
- ETHOS 3: Accommodation for the homeless (e.g., hostels and women’s refuges)
- ETHOS 4: People in institutions
- ETHOS 5: People in non-conventional dwellings (e.g., caravans, cars or tents)
- ETHOS 6: Living temporarily with others in conventional housing (e.g., sofa-surfing)

Note: Each ETHOS Light group includes one or more sub-categories of living situations. ETHOS Light groups are considered as “included” in the data collection approach if at least one of the sub-categories is counted.

**5.3.FRA. Slum clearing platform (*Plateforme résorption-bidonvilles*)****Description**

The Résorption-bidonvilles platform is a tool for information, sharing and steering, that is used to move people from non-conventional housing settlements to conventional housing. Organisations working with people living in non-conventional housing settlements regularly update information on corresponding settlements in the platform.

<b>Type of count generated</b> <input checked="" type="checkbox"/> Point-in-time <input checked="" type="checkbox"/> Flow (period) Note: Both point-in-time and flow data can be generated through this method.	<b>Methods</b> <ul style="list-style-type: none"> <li>• Other (Information system on non-conventional housing)</li> </ul>
<b>Lead authority(ies)</b> <ul style="list-style-type: none"> <li>• Délégation interministérielle à l'hébergement et à l'accès au logement (DIHAL)</li> </ul>	<b>Source(s) of information</b> <ul style="list-style-type: none"> <li>• NGOs, government services, associations and other organisations working with people living in non-conventional housing update information directly in the platform.</li> </ul>
<b>Scope</b> <ul style="list-style-type: none"> <li>• The platform collects information on all non-conventional settlements in France.</li> <li>• Limited monitoring in Overseas departments and territories.</li> </ul>	<b>Depth of data</b> <ul style="list-style-type: none"> <li>• Number and characteristics of people living in non-conventional housing</li> <li>• Characteristics of non-conventional housing</li> </ul>
<b>Frequency</b> <ul style="list-style-type: none"> <li>• Ongoing</li> </ul>	

**ETHOS Light groups included**

- ETHOS 1: Living on the streets, in public spaces
- ETHOS 2: Emergency accommodation (e.g., shelters)
- ETHOS 3: Accommodation for the homeless (e.g., hostels and women's refuges)
- ETHOS 4: People in institutions
- ETHOS 5: People in non-conventional dwellings (e.g., caravans, cars or tents)
- ETHOS 6: Living temporarily with others in conventional housing (e.g., sofa-surfing)

Note: Each ETHOS Light group includes one or more sub-categories of living situations. ETHOS Light groups are considered as "included" in the data collection approach if at least one of the sub-categories is counted.

#### 5.4.FRA. Information system – integrated reception and orientation service (*Système Information – Service intégré d'accueil et d'orientation (SI-SIAO)*)

##### Description

The number of people requesting emergency housing assistance, transitional housing and/or social support through the Information system – integrated reception and orientation service (SIAO) is recorded, as well as the outcome of the decision. *Départements* provide individual activity reports each year.

<p><b>Type of count generated</b></p> <ul style="list-style-type: none"> <li><input checked="" type="checkbox"/> Point-in-time</li> <li><input checked="" type="checkbox"/> Flow (period)</li> </ul> <p>Note: Both point-in-time and flow data can be generated through this approach.</p>	<p><b>Methods</b></p> <ul style="list-style-type: none"> <li>• Information management system on individuals experiencing homelessness</li> </ul>
<p><b>Lead authority(ies)</b></p> <ul style="list-style-type: none"> <li>• Délégation interministérielle à l'hébergement et à l'accès au logement (DIHAL)</li> </ul>	<p><b>Source(s) of information</b></p> <ul style="list-style-type: none"> <li>• People applying for homelessness related services provide information directly through the online portal</li> </ul>
