

Alternative Fuel Vehicle (AFV) and Infrastructure Tax Credit

Businesses and individuals are eligible for an income tax credit of 50% of the incremental or conversion cost for qualified AFVs, up to \$19,000 per vehicle. A tax credit is also available for 50% of the equipment and labor costs for the purchase and installation of alternative fuel infrastructure on qualified AFV fueling property. The maximum credit is \$1,000 per residential electric vehicle charging station, and \$10,000 per publicly accessible AFV fueling station. Qualified alternative fuels include, ethanol blends of at least 85%, compressed natural gas, liquefied natural gas, propane, biodiesel, electricity, and hydrogen. This incentive expires December 31, 2026.
