

Biodiesel Use Requirement

At least 75% of the Missouri Department of Transportation (MoDOT) vehicles and heavy equipment that use diesel fuel must be fueled with biodiesel blends of at least 20% (B20), if such fuel is commercially available. The blended biodiesel fuel will be considered commercially available if the incremental purchase cost compared to conventional diesel fuel is not more than \$0.25. To the maximum extent practicable, MoDOT may obtain funding for the incremental cost of the blended biodiesel fuel from the state's Biodiesel Fuel Revolving Fund. (Reference Missouri Revised Statutes (<http://www.moga.mo.gov/>) 414.365 and 414.407)
