

Renewable Fuel Retailer Tax Incentive

A licensed retail motor fuel dealer may receive a quarterly incentive for selling and dispensing renewable fuels, including biodiesel. A qualified motor fuel dealer is eligible for up to \$0.065 for every gallon of renewable fuel sold and up to \$0.03 for every gallon of biodiesel sold, if the required threshold percentage is met. The threshold is determined by calculating the percent of total gasoline sales that is renewable fuel or biodiesel. For renewable fuel, the threshold increases incrementally on an annual basis from 10% in 2009 to 25% beginning on January 1, 2024. For biodiesel, the threshold increases incrementally on an annual basis from 2% in 2009 to 25% in 2025. No funding is available for this incentive through June 30, 2018 (confirmed July 2016).
