

Summary of key findings

Official statistical definition of homelessness (Table 1.NOR)

Homelessness is defined as: people who do not have their own owned or rented accommodation and are referred to random and temporary accommodation, live temporarily with friends, acquaintances or relatives, are in an institution or under correctional facilities and are to be discharged/released within two months without having their own accommodation, as well as people who sleep outside/don't have a place to sleep.

Latest national estimates of homelessness

- 3 325 individuals, representing 0.06% of the total population (2020)
- 29% are women, 71% are men
- Point-in-time count, based on the Nationwide Mapping Study of Homelessness
- ETHOS Light groups included:
 - ☒ ETHOS 1: Living on the streets, in public spaces
 - ☒ ETHOS 2: Emergency accommodation (e.g., shelters)
 - ☒ ETHOS 3: Accommodation for the homeless (e.g., hostels and women's refuges)
 - ☒ ETHOS 4: People in institutions
 - ☒ ETHOS 5: People in non-conventional dwellings (e.g., caravans, cars or tents)
 - ☒ ETHOS 6: Living temporarily with others in conventional housing (e.g., sofa-surfing)

Legal framework to collect data on homelessness (Table 3.NOR)

There is no legal obligation to collect data on homelessness in Norway.

National homelessness strategy (Table 4.NOR)

- [National strategy for social housing policies \(2021-2024\): We all need a safe space to call home](#)

Approaches to collect data on homelessness (Table 5.NOR)

- Nationwide mapping study on homelessness: municipalities, institutions and services collect homelessness information over a week (Table 5.1.NOR)
- Annual data on the number of homeless: Estimating of homelessness statistics using administrative data (Table 5.2.NOR)

This project was funded by the European Union. The opinions expressed and arguments employed herein do not necessarily reflect the official views of the OECD member countries or the European Union.

Table 1.NOR. Official statistical definition of homelessness

Homelessness	<p>In the nationwide mapping study on homelessness, it is specified that homelessness is defined in terms of positions “in and out” of the market. Homelessness is defined as it follows:</p> <p>“People who do not have their own owned or rented accommodation and are referred to random and temporary accommodation, live temporarily with friends, acquaintances or relatives, are in an institution or under correctional facilities and are to be discharged/released within two months without having their own accommodation, as well as people who sleep outside/don’t have a place to sleep.”</p>

Table 5.NOR. Approaches to collect data on homelessness

5.1.NOR. Nationwide mapping study on homelessness	
Description	
<p>The Norwegian State Housing Bank (in partnership with the Oslo Metropolitan University and the Norwegian Institute for Urban and Regional Research) conducts its nationwide mapping on homelessness over a week. Municipal service employees, the Norwegian Labour and Welfare Administration (NAV), health institutions and prisons, as well as NGOs and other private agencies collect information from people experiencing homelessness over a week in autumn.</p>

Notes Official report	

5.2.NOR. Annual data on the number of homeless

Description

The Norwegian State Housing Bank uses data from shelters, social services, evictions, and a selection of municipalities to estimate the number of people experiencing homelessness every year.
