OUR INTERVENTION MODEL

INDIVIDUAL

ORGANIZATIONAL

SOCIAL INTEGRATION

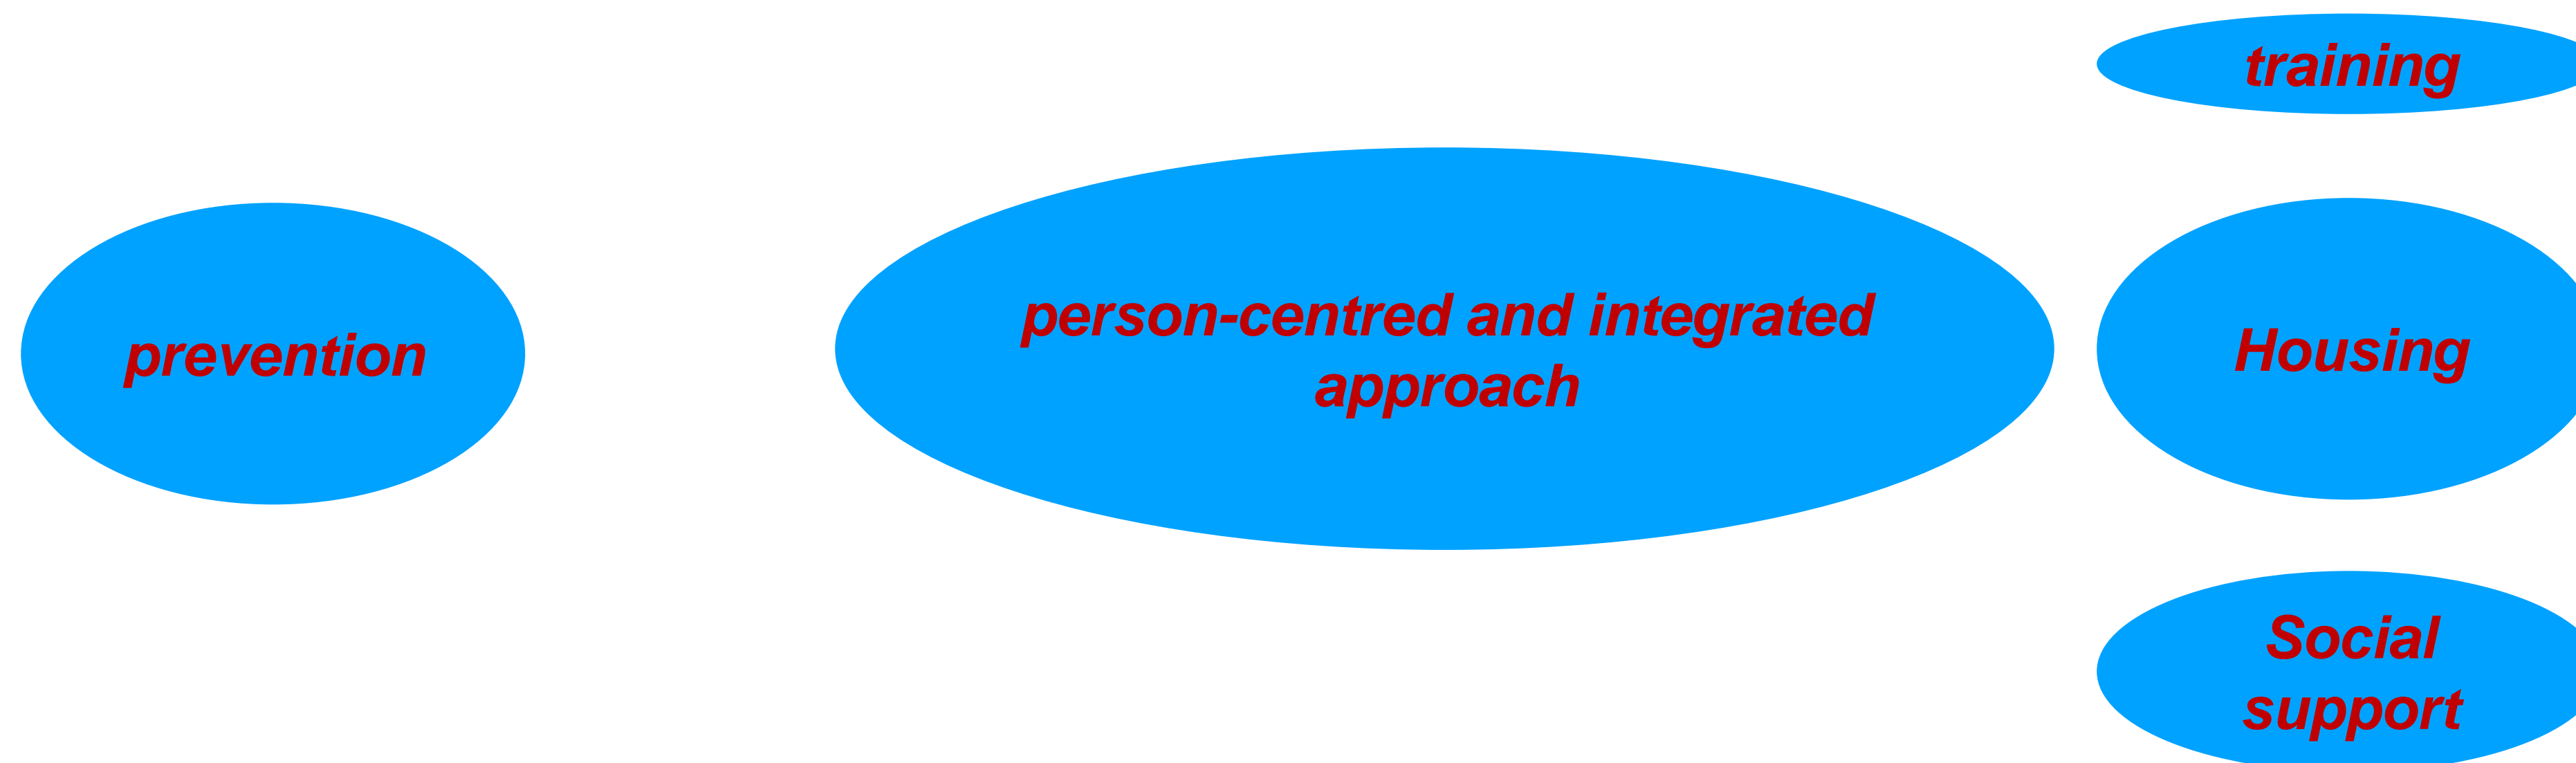

Main challenges

- To consolidate a **person-centred and integrated approach**, that combines **prevention**, access to **permanent housing** and the provision of enabling **support services**.
- To Increase a sufficient level of **affordable and secure housing** – different model to different profiles.
- To implement a **digital information system** (waiting authorization National data protection authority).
- To Develop an **Evaluation system**.

Main challenges

- To consolidate a *person-centred and integrated approach*, that combines *prevention*, access to *permanent housing* and the provision of enabling *support services*.
