

CONSOLIDATED DATA COLLECTION ON 2024 RESOURCES FOR CRS AND TOSSD: EXPLANATORY NOTES FOR MULTILATERAL INSTITUTIONS

I. INTRODUCTION AND OBJECTIVES

The OECD has collected data on activities conducted by multilateral organisations through the Creditor Reporting System (CRS) for several years to allow the calculation of total resource receipts by developing country and region. These data are collected as per the request of DAC members for all major multilateral development organisations and, since 2016, all multilateral organisations that are added to the List of ODA-eligible international organisations. The data are used for numerous analyses on external official resources to developing countries, by policymakers at global, regional and country levels as well as by international organisations, civil society organisations and the academia.

The scope of the CRS data collection from multilateral organisations only covers core-funded activities as activities channelled through multilateral organisations (i.e. non-core / earmarked resources) are reportable by donor countries. In Total Official Support for Sustainable Development (TOSSD), these non-core resources are collected directly from multilateral institutions to build a more comprehensive recipient perspective. TOSSD also includes contributions for International Public Goods, which are key for the implementation of the Sustainable Development Goals (SDGs). Given their global or regional nature, these activities (e.g. research, standard-setting or policy work) are not captured (or are only partially captured) in the CRS. Multilateral institutions are key providers of International Public Goods at regional and global levels and TOSSD provides them with a metric to valorise such contributions.

The CRS and TOSSD frameworks are thus complementary (see Table below) and reporting to both is encouraged to promote transparency on the use of development finance resources. This note explains how multilateral organisations can report to the CRS and TOSSD using a consolidated template.

Table 1. Flows from multilateral agencies in the CRS and TOSSD

Origin of resources	Expenditures in support of ODA-eligible developing countries	Expenditures for global functions or in support of countries that are only TOSSD recipients
Core resources (assessed and unearmarked contributions)	CRS and TOSSD	TOSSD only
Non-core (earmarked) resources	TOSSD only	TOSSD only

Since January 2024, the TOSSD framework is operated by the Secretariat of the International Forum on TOSSD (IFT) as an independent entity hosted by the OECD. Conscious of the limited resources available for statistical reporting in the agencies, the CRS and TOSSD data requests to multilateral organisations have been streamlined to meet the needs of both frameworks. Moreover, the OECD and the IFT Secretariats will co-ordinate their feedback to reduce the reporting burden of the agencies.

For any questions/assistance regarding reporting or possible delays, please contact:

OECD Mr. Aussama Bejraoui aussama.bejraoui@tossd.org IFT Secretariat (TOSSD)
Ms Marisa Berbegal Ibáñez
marisa.berbegalibanez@tossd.org

¹ See https://www.oecd.org/en/topics/sub-issues/oda-eligibility-and-conditions/dac-list-of-oda-recipients.html.

II. METHODOLOGY FOR THE DATA COLLECTION

The data collection relates to **resources provided in calendar year 2024**. It covers all the components of the CRS and TOSSD, i.e.:

- Cross-border resource flows (i.e. external flows), including in-kind technical co-operation, in support of sustainable development in developing countries;
- Contributions to support development enablers and/or address global challenges at regional or global levels i.e. resources spent at the global and regional levels to support global sustainable development, such as the promotion of international public goods (e.g. normative work on environmental protection), the strengthening of development "enablers" (e.g. regional peace operations) or tackling global challenges (e.g. surveillance communicable diseases);
- Private finance mobilised through official development finance interventions.

Reporting is requested at activity level, and the objective is to make all data publicly available, to the extent possible, also at activity level at OECD Data Explorer and tossd.online.

III. FORMAT AND TIMELINE FOR THE DATA COLLECTION

Streamlined CRS and TOSSD reporting

Data collection for CRS and TOSSD takes place using a consolidated reporting template available <u>here</u>, which has 35 fields (it excludes CRS fields that are not relevant to multilateral organisations). Annex 1 explains the different reporting fields.

NEW! Another version of the consolidated reporting template <u>here</u> offers, in the "Macro for checks" tab, a button that launches a set of automated checks (VBA macro). These basic checks review the validity of codes, their formatting, and the coherency between values in an activity. **Please run the macro and address all the errors before sending your submission.**

The **code list** available <u>here</u> contains all the classifications and associated codes for reporting in the CRS and TOSSD (e.g. sectors, financial instruments).

NEW! We would like to highlight the creation of a new code for multilateral support for South-South co-operation for use in the field "17. Framework of collaboration". You will also find a new field:

o 34. Disability - to indicate if the activity has inclusion and empowerment of persons with disabilities as its principal objective, or as a significant (secondary) objective, or if it does not target disability inclusion.

Specific inputs requested from multilateral organisations for TOSSD

As shown in Table1 above, an important difference between the CRS and TOSSD frameworks is that in the latter multilateral organisations report on **both their core and non-core funded projects and activities** (unearmarked and earmarked funding). TOSSD aims to provide greater detail on the use of resources channelled through various intermediaries, in particular multi-donor trust funds.

Please identify separately in the data file each funding window, special fund or trust fund using the reporting item 3 "provider agency". This information will serve to distinguish between core and non-core funding. (Only core-funded activities will be included in the CRS to avoid double-counting with reporting from bilateral donors.)

Reporting deadline

The reporting deadline is 15 June 2025. Please contact the OECD should you anticipate any difficulties in meeting this deadline.

Annex 1. Activity-level Consolidated Reporting Form for CRS and TOSSD and summary of Reporting Instructions

The consolidated format for multilateral organisations has 35 items. A number of items can be left empty if the information is not available, items required are specified in the table.

Items used for TOSSD only are identified below.

Reporting items	Clarifications		
A. Identification data			
1. Reporting year	Required item. Calendar year for which data are reported.		
2. Provider country/institution	Required item. Unique code identifying the reporting country or institution. If you do not find a code for your country/institution, please indicate the name in letters.		
Required item. Unique code identifying the agency within the provider country that has budget responsibility and controls the activity for its own account. The provider agency is the entity (central, state or local government agency or department) financing the activity from its own budget. For multilateral organisations, the code identifies the or fund financing the activity within the institution (e.g. funding window, special fund, trust fund). If you do not find a code for a particular agency, please indicin letters.			
4. Provider project ID number	Unique code for identifying the project in the provider's internal databases. Leave empty if the project is not identified by a code in your systems at present.		
5. ID Number	Unique code for identifying the project in the OECD databases. Format is a 10-digit number starting by year (e.g. 2020000327). It can be created by the Secretariat.		
B. Basic data			
6. Recipient	Required item. Unique code identifying the country/region receiving the cross-border flow, or benefiting from the in-kind technical co-operation. Each recipient country/region has its own code. Note that the list of TOSSD recipients is broader than the ODA-recipients list used for CRS reporting. Consult the Secretariat about the possibility of using alternative regional classifications, such as the M49 UNSD classification.		
7. Project title Free text indicating the official project title in English, French or Spanish. If the project title is only available in another language, please provide it as such and the Force Secretariat will make best efforts to translate it.			
Free text describing the activity, including its objectives, planned outputs and outcomes, time frame, and budget. The text should be provided in English, French time, the aspiration will be to collect this information in all UN languages. As indicated above for the project title, if the description is only available in another languages.			
9. External link	Digital Object Identifier (DOI) or link to a web page (of the provider, implementing partner or recipient) containing detailed information on the activity.		
Required item. Multiple codes identifying the target(s) in the UN list of SDG targets, separated by a semicolon ";" (e.g. 2.1; 3.3). In case no direct link can be found to an S goal as "x.0", for example "2.0" for Goal 2, and provide an appropriate justification in the "notes" field at the end of the data file. (See the Reporting Instruct targets that the activity directly and significantly contributes to. It is expected that, for most projects, the number of SDG targets should not exceed ten. On targets (and/or goals) reported per activity will be disseminated online.			
11. Sector	Required item. Multiple codes identifying the sector(s) that the resource transfer is intended to foster. Reporting is based on either the OECD CRS purpose codes classification or the latest International Standard Industrial Classification (ISIC) maintained by the UN Statistics Division. Data reported in ISIC will be converted to the OECD CRS classification by		

Reporting items	Clarifications		
	the Secretariat using conversion tables. In the case activities that benefits several sectors, a maximum of 10 sector codes can be assigned. The share of the contribution corresponding to each code should be reported with the percentages adding up to 100. Use one of the following formats: • a string that can be easily parsed such as: "23110:40 32262:30 15114:20 15160:10"; or • an XML string such as: " <sectors><sector code="23110" percentage="40"></sector><sector code="32262" percentage="60"></sector></sectors> ". If details are not available, report one main sector only.		
12. Channel of delivery	Required item. The channel of delivery is the first implementing partner. It has implementing responsibility over the funds and is normally accountable to the provider agency by a contract or other binding agreement. If the activity (e.g., technical assistance to recipient country governments) is implemented by the reporting organisation, then this reporting organisation should be the one indicated as the channel of delivery. Indicate the code identifying the institution through which the activity is implemented. In case the institution through which the activity is implemented does not have a channel of delivery code, indicate the relevant category. The channels of delivery classification includes six main categories as follows: 10000: Public sector institutions include central, state or local government departments (e.g. municipalities) and public corporations in provider or recipient countries. 20000: Non-governmental organisations (NGOs) and civil society. 30000: Public-private partnerships (PPPs) and networks. 40000: Multilateral organisations are international institutions with governmental membership. 51000: Universities, colleges or other teaching institutions, including research institutes or think-thanks. 60000: Private sector institutions, including all "for-profit" institutions, consultants and consultancy firms that do not meet the definition of a public sector institution.		
13. Channel name	Free text indicating the full name of the institution implementing the activity (channel of delivery).		
13b. Other partner entities/	Free text indicating, when applicable, the full names of additional entities or organisations involved in the implementation of the activity, including in the context of triangular/trilateral		
organisations	co-operation.		
14. Modality	Required item. Unique code specifying the modality of co-operation used to implement the activity. Modalities describe the outflows from the reporting organisation (to recipient countries), not the inflows to the organisation.		

Reporting items	Clarifications		
	The various modalities relevant to multilateral institutions' activities include: • A01: GENERAL BUDGET SUPPORT - identifies unearmarked contributions to the government budget including funding to support the implementation of macroeconomic reforms (structural adjustment programmes, poverty reduction strategies). Please make sure to associate sector code 51010 for general budget support. • A02: SECTOR BUDGET SUPPORT - identifies budget support for which a dialogue between donors and partner governments focuses on sector-specific concerns, rather than on overall policy and budget priorities. • B01: CORE SUPPORT TO NGOS AND CIVIL SOCIETY, PPPs AND RESEARCH INSTITUTES – Identifies funds provided to PPPs, networks, research institutes and non-profit private bodies for use at these organisations' discretion and contributing to programmes and activities which these institutions have developed themselves, and which they implement on their own authority and responsibility. • B03: CONTRIBUTIONS TO SPECIFIC-PURPOSE PROGRAMMES AND FUNDS MANAGED BY NGOS AND CIVIL SOCIETY, PPPs AND RESEARCH INSTITUTES – Identifies funds provided to PPPs, networks, research institutes and non-profit private bodies for specific programmes and funds with clearly identified sectoral, themselved or geographic focus. • C01: PROJECTS – Identifies specific inputs, activities and outputs supported by a TOSSD provider, to reach specific objective/soutcomes within a defined time frame, with a defined bugget and a defined geographical area. For projects primarily related to technical assistance, use the modality 7002 – Other Technical Co-operation*. • D02: OTHER TECHNICAL CO-OPERATION – Includes the provision of technical co-operation using internationally or locally recruited experts, beyond technical co-operation already embedded in the projects described above and beyond in-kind technical assistance, use the modality 7002 – Other Technical Co-operation*. • D01: DEBT RELIEF, PRINICPIAL (original loan previously incorded in TOSSD). • F03: DEBT		
15. Financial instrument	Required item. Unique code specifying the financial instrument used to fund the activity. The main categories of financial instruments are: grants, debt instruments, mezzanine finance instruments, equity and shares in collective investment vehicles, guarantees and other unfunded contingent liabilities, direct provider spending.		
16. Financing arrangement	Multiple codes identifying specific characteristics of the financial arrangement: • FA01: BLENDED FINANCE – the strategic use of development finance for the mobilisation of additional finance towards sustainable development. • FA02: ISLAMIC FINANCE – sharia-compliant finance (the Islamic finance instruments are included in the financial instruments classification in the relevant categories). • FA03: CO-FINANCING ARRANGEMENTS INVOLVING RECIPIENT COUNTERPART FUNDS – the co-financing by the recipient country public institutions.		

Reporting items	Clarifications		
17. Framework of collaboration	 Multiple codes identifying specific frameworks of collaboration: FC01: SOUTH-SOUTH CO-OPERATION – a broad framework of collaboration among countries of the South in the political, economic, social, cultural, environmental and technical domains. Involving two or more TOSSD recipients, it can take place on a bilateral, regional, intraregional or interregional basis. Developing countries share knowledge, skills, expertise and resources to meet their development goals through concerted efforts. FC02: TRIANGULAR CO-OPERATION – (also referred to as trilateral co-operation) involves a partnership among at least three partners, where three main roles can be identified as follows: The beneficiary partner, which is a TOSSD recipient country that requests support to tackle a specific development challenge. Two other partners (of which one is an SSC provider) that make their knowledge, expertise and/or financial resources available to help the beneficiary tackle the development challenge. (NEW CODE) FC03: MULTILATERAL SUPPORT FOR SOUTH-SOUTH CO-OPERATION: Collaborative arrangement whereby a multilateral institution supports South-South co-operation exchanges, providing a mechanism or a structure (financial or non-financial) that facilitates the exchange of knowledge, skills, expertise and/or resources among two or more developing countries. 		
18. TOSSD Pillar	Required item. A code indicating whether the activity falls under Pillar I or Pillar II of TOSSD. Pillar I (code 1) identifies cross-border resources extended to TOSSD recipients in support of sustainable development and also includes in-kind technical co-operation. Pillar II (code 2) identifies regional and global expenditures (that do not involve cross-border flows to TOSSD-recipient countries) to support the provision of international public goods, promote development enablers and address global challenges. Further guidance on reporting on Pillar I and classification of activities in sub-pillars pillar II.A (code 21) and pillar II.B (code 22) is given in Annex 2 below and the Reporting Instructions, Annex E, table 1.		
C. Volume data			
19. Currency	Required item ISO code for the currency in which the transaction has been undertaken. If you do not find a code for your currency, please indicate the name in letters.		
20. Amount committed	Required item. In thousands of units (millions for Yen). New amount committed contractually by the provider during the reporting year, i.e. the face value of the activity. Negative commitments will be moved to a separate column that will be kept internally by the OECD. The data officially published will include only positive commitments.		
21. Amount disbursed	Required item. In thousands of units (millions for Yen). Amount disbursed (expenditure) by the provider during the reporting year.		
22. Reflows to the provider	Required item. In thousands of units (millions for Yen). Amount paid back to the provider (your organisation) during the reporting year and related to recoveries on grants, amortisation of loans and gains or losses from equity sales. The amounts can be reported aggregated by recipient country.		
23. Amount mobilised	In thousands of units (millions for Yen). Report in this field the resources mobilised by official development finance interventions from private sources, where a causal link between the provision of the private finance and the official intervention can be documented. ² Transactions are classified as official or private according to who owns or controls the financing entity (see definitions in footnote 3).		

_

² Detailed description of the CRS methodologies, including examples of reporting, can be found here. MDBs can report on the mobilised amounts based on the MDB methodology as long as they also report the supplementary data requested in the worksheet "mobilisation" of the reporting template for quality assurance and harmonization purposes.

³ In the context of the CRS and TOSSD, official transactions are those undertaken by central, state or local government agencies at their own risk and responsibility, regardless of whether these agencies have raised the funds through taxation or through borrowing from the private sector. This includes transactions by public corporations i.e. corporations over which the government secures control by owning more than half of the voting equity securities or otherwise controlling more than half of the equity holders' voting power; or through special legislation empowering the government to determine corporate policy or to appoint directors. Private transactions are those undertaken by firms and individuals resident in the reporting country from their own private funds.

Reporting items	Clarifications
35. Keywords	The keywords field is used to identify activities with specific cross-cutting characteristics or objectives, such as #COVID-19, #REFUGEES_HOSTCOMMUNITIES, #PPR_PREPAREDNESS, etc.

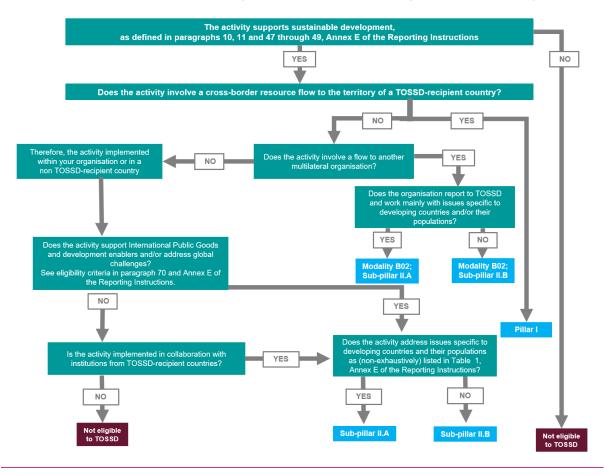

Annex 2. Guidance for reporting on sub-pillars II.A and II.B

TOSSD Pillar II captures resources in support of International Public Goods that are necessary for the achievement of the SDGs (e.g. international normative and surveillance work in areas such as climate change and pandemics). It includes resources deployed at the international (global or regional) or domestic level and whose benefits are of transnational reach. TOSSD Pillar II is further broken down to sub-pillars II.A and II.B. Sub-pillar II.A covers activities that address issues specific to developing countries and/or their populations, while sub-pillar II.B covers activities that address issues of a global nature or that provide benefits at the global level.

The decision tree below describes the general approach for reporting on TOSSD, including Pillar II:

Eligibility criteria are explained in the Reporting Instructions and additional guidance on the eligibility of specific themes has been included in Annex E:

- Research & Development
- Peace & Security
- Climate change
- · Support to refugees and protected persons
- Global health

Examples are listed below:

Climate

- Activities in countries beyond the list of TOSSD recipients (e.g. high-income countries and EU Members States) – TOSSD sub-pillar II.B (code 22):
 - o Climate mitigation: EU LIFE programme Climate mitigation part

- Climate action part of the European Union Regional Cohesion Fund, designed to reduce the differential in development between European regions and to promote sustainable development
- o Climate research: Climate Change Science Project

Biodiversity:

- Global and regional activities: TOSSD sub-pillar II.B (code 22) unless the activity is specifically aimed at a developing region, in which case TOSSD sub-pillar II.A (code 21) should be assigned:
 - Convention on the Conservation of Migratory Species of Wild Animals
 - UNEP Data Reporting Tool for biodiversity-related Multilateral Environmental Agreements
 - Database related to the EU Wildlife Trade Regulations in support of Customs, police and other inspection services in combating illegal wildlife trade into and from the EU
- Activities in countries beyond the list of TOSSD recipients (e.g. high-income countries and EU Members States):TOSSD sub-pillar II.B (code 22):
 - European Union: LIFE programme environment including Natura–2000 on protection of biodiversity and in particular migratory birds
 - o Conserving hawksbill sea turtles and their beach habitats in Barbados

Research & Development:

- Global and regional activities:— TOSSD sub-pillar II.B unless the activity is specifically aimed at a developing region, or addresses an issue specific to developing countries or their populations, -in which case-TOSSD sub-pillar II.A(code 21) should be assigned:
 - IADB Economic and sector work
 - International Workshop on HIV and Hepatitis Observational Databases
 - o OECD Centre for Educational Research and Innovation
 - UNIDIR: Understanding nuclear weapons risks
- Activities in countries beyond the list of TOSSD recipients (e.g. high-income countries and EU Members States):
 — TOSSD sub-pillar II.B:
 - o European Union Horizon 2020 funding programmes:
 - H2020 Energy Efficiency: support for innovation of more energy-efficient technologies.
 - H2020 Environment and Resource: assure environmental integrity, resilience and sustainability with the aim of keeping average global warming below 2° C and enabling ecosystems and society to adapt to climate change and other environmental changes

Satellites and observation systems:

- Global and regional activities: : TOSSD sub-pillar II.B (code 22) unless the activity is specifically aimed at a developing region, in which case TOSSD sub-pillar II.A (code 21) should be assigned: Group on Earth Observations (GEO), Global Climate Observing Systems
- European Union programmes TOSSD sub-pillar II.B (code 22):
 - Copernicus (Global Monitoring for Environment and Security) is the EU's World Satellite
 Observation programme: Satellite imagery is provided for free to organisations worldwide and it
 is already widely used for development and cooperation purposes.
 - Galileo / European Geostationary Navigation Overlay Service: free GPS-style programme used across the world (200 millions of users worldwide in September 2018).

Health

- Global and regional activities:— TOSSD sub-pillar II.B unless the activity is specifically aimed at a developing region, or addresses an issue specific to developing countries or populations in which case TOSSD sub-pillar II.A should be assigned:
 - Supporting the Caribbean Public Health Agency Research, Policy Development and Evaluation Unit (II.A code 21)
 - WHO / UNECE Joint Task Force on Health Aspects of Long Range Transboundary Air Pollution (II.B code 22)
 - o Coalition for Epidemic Preparedness Innovations (CEPI) (II.B code 22)
- Activities in the provider country or countries beyond the list of TOSSD recipients (mostly related to research): (II.B code 22)
 - Healthy Lifestyle Summer Program 2018
 - Research: Evaluating Population Health Interventions From Community Perspectives: A Health Equity Approach

Other areas

- Trade, e.g. trade agreements (II.B code 22) Industry (II.B code 22)
- Sustainable consumption and production (II.B code 22)
- Human rights and justice e.g. international criminal tribunals.(II.B code 22)

Annex 3. Checklist for reporters

Reporting items	Clarifications			
1. Reporting year				
2. Provider country/institution				
3. Provider agency				
4. Provider project number				
5. ID Number	Please make sure that all ID Numbers are uniq	ue.		
6. Recipient				
7. Project title	Maximum field length = 300 characters. Please	consider editing if se	ource data > 300 characters.	
8. Description	Maximum field length = 8000 characters. Pleas	e consider editing if	source data > 8000 characters.	
9. External link				
	separated by ";" and not by any other punctuation mark. The SDGs and sector categories have interlinkages, which may be strong, medium or mild. When reporting the SDG focus, please consider the interlinkages as shown in the table below. Further information on the interlinkages between the SDGs, main sector categories and markers (e.g. climate mitigation, climate adaptation) can be found in the SDG Handbook . Main interlinkages between SDGs and sectors			
	Sector	CRS sector categories	Related SDGs & Targets	Strength
10. SDG focus	Education	110 - 114	SDG 1 (1.a, 1.4, 1.5), SDG 4, SDG 11.2	Medium, Strong
	Health	120 - 123	SDG 1 (1.a, 1.4, 1.5), SDG 3, SDG 11.2	Medium, Strong
	Population Policies/Programmes & Reproductive Health	130	SDG 3 and SDG 5	Strong
	Water Supply & Sanitation	140	SDG 1 (1.a, 1.4, 1.5), SDG 6, SDG 11.2	Strong
	Government & Civil Society	150 - 151	SDG 1, SDG 5, SDG 10, SDG 16 and others	Mild, Medium, Strong
	Conflict, Peace & Security	152	SDG 16.1, 16.2	Strong
	Other Social Infrastructure & Services	160	SDG 1, SDG 10, SDG 11 and others	Medium
	Transport & Storage	210	SDG 9, SDG 11.2 and others	Mild
	Communications	220	SDG 9.c., SDG 17.8, many others	Strong, Mild

				BETTER POLICIES FOR BETTER LIVES
Reporting items	Clarifications			
	Energy	230 - 236	SDG 7 (all), SDG 13 (232 Renewable Energy)	Strong
	Banking & Financial Services	240	SDG 1, 8.10, 9.3, 10.5 and others	Medium
	Business & Other Services	250	SDG 1, SDG 8, SDG 9 and others	Mild
	Agriculture, Forestry, Fishing	310 - 313	SDG 2 and SDG 1, SDG 8, SDG 12, SDG 15	Strong, Mild
	Industry, Mining, Construction	320 - 323	SDG 1, SDG 8, SDG 9, SDG 12 and others	Mild
	Trade Policies & Regulations	331	SDG 10.a, 17.10, 17.11, 17.12; SDG 1, SDG, 8	Strong, Mild
	Tourism	332	SDG 1, SDG 8.9 and others	Mild, Strong
	General Environment Protection	410	SDG 11.3 and 11.6; SDG 12; SDGs 13 - 15	Medium, Mild, Strong
	Other Multisector	430	SDG 1 and others	Mild
	General Budget Support	510	SDG 16.6, SDG 17.2 and case by case	Mild
	Development Food Assistance	520	SDG 2.1 and 2.2	Strong
	Other Commodity Assistance	530	Many	
	Action Relating to Debt	600	SDG 17.4	Strong
	Emergency Response	720	SDG 1.5 <i>if</i> no project-related SDG is applicable	Mild
	Reconstruction Relief & Rehabilitation	730	SDG 1.5 <i>if</i> no project-related SDG is applicable	Mild
	Disaster Prevention & Preparedness	740	SDG 3 or 11.5	Mild, Strong
	Administrative Costs of Donors	910	SDG 17.2 if no project-related SDG is applicable	Mild
	Refugees in Donor Countries	930	SDG 10.7, others	Medium
	Unallocated / Unspecified	998	SDG 17.16 and 17.17	Mild
	If multiple sectors are assigned, please make su	ire that the number of	f sectors reported for an activity does not exceed 10, and that t	he percentages assigned to each

17. Framework of collaboration	
18. TOSSD pillar	For regional projects not involving cross-border flows to specific countries and recipient codes 189, 289, 298, 1027, 1028, 1029 and 1030 please assign TOSSD sub-pillar '21'. For regional projects not involving cross-border flows to specific countries and recipient codes 619, 679 and 689 please assign TOSSD sub-pillar '22'. For sectors 410XX with recipient code 999 or non-TOSSD recipient please assign TOSSD sub-pillar II.B (code '22'). For sector 1520010 please assign TOSSD sub-pillar II.B (code '22'). For channels 41203 and 41204 please assign TOSSD sub-pillar II.B (code '22'). For modalities 802 (with channel 41310), 803 and E02, please assign TOSSD sub-pillar II.A (code '21'). For modalities B02, and G01, please assign TOSSD sub-pillar '21' or '22'. Activities under modality C01 with a specific recipient code will generally be assigned TOSSD pillar '1'. For modality C01 with a regional or global recipient code, please check whether the project involves flows to multiple countries (assign TOSSD pillar '1') or relates to a regional/global project implemented at the level of a global or regional institution with no direct resource transfer to individual countries (assign TOSSD sub-pillars '21' or '22'). Activities under modalities D01 and D02 generally fall under TOSSD pillar '1' (except when donor experts are assigned to work for multilateral organisations, in which case sub-pillars '21' or '22' are more appropriate). For modalities I01, I02 and I05, please assign TOSSD sub-pillar II.A (code '21'). For modalities I01, I02 and I05, please assign TOSSD sub-pillar II.A (code '21').
